PROJECTS

BAROSSA AUSTRALIA TOURISM PLATFORM | BAROSSA.COM

Oct 2024 - Apr 2026 | Australia (Remote)

- Built ATDW tourism API integration with daily sync, complex field mappings, and automated change tracking for 1000+ listings.
- Migrated LearnDash LMS system consolidating wine education portal with main site, preserving user accounts and course content.
- Engineered advanced filtering, pagination, and URL normalization across multiple tourism data sources.
- Designed AWS infrastructure with Auto Scaling, spot instances, and Terraform-based infrastructure as code.
- Implemented automated backup and cron scheduling systems with complete CI/CD pipelines.

GOLFER'S EDGE BOOKING WEBSITE | UPARBOOKING.COM

Sep 2024 - Apr 2026 | Bengaluru, India

- Built advanced booking wizard with time slot management, player count optimization, and integration with Google Calendar for real-time synchronization.
- Implemented Razorpay payment processing with coupon/discount system, invoice generation, and confirmation emails for seamless transactions.
- Developed admin dashboard with multi-dimensional reporting including revenue trends, booking analytics, and user-sourced bookings.
- Engineered responsive mobile-first design handling half-hour slot intervals and supporting pending booking management workflows.
- Architected AWS infrastructure with Terraform for automated scaling, deployed GST-aware invoicing, and built booking source tracking system.

DJ JONAS MONTEIRO'S WEBSITE | JONASMONTEIRO.COM

Aug 2025 - Mar 2026 | Bengaluru, India

- Engineered LangGraph-powered AI assistant with multi-turn conversation handling, intent detection, and context-aware event discovery using Google Gemini.
- Implemented custom workflows for intelligent event filtering, venue search, guestlist management, and FAQ knowledge base integration with fallback responses.
- Built comprehensive TinaCMS admin interface enabling non-technical content management for 80+ events, galleries, FAQ, venues, and site configuration.
- Developed natural language event search with timezone-aware date parsing, venue filtering by city/locality, and multi-model AI quota management.
- Created secure AI-powered chatbot with prompt injection protection, markdown support, and conversation context persistence for seamless user interactions.
